- Growth Minded

ABOUT

Highly motivated and recent college graduate with a strong foundation in Java, Android and Web development. Passionate about leveraging my technical skills and project experience to contribute to a dynamic organization as a Software Developer.

EXPERIENCE

- **Full Stack Web Developer Intern** May - Jun 2022
COMPSOFT TECHNOLOGIES | Rajajinagar, Bengaluru
 - Understanding the design brief and client specifications.
 - Implemented the same in designing and developing backend database and front end using HTML, CSS, JAVASCRIPT & BOOTSTRAP technologies.
- **Android Developer Intern** Aug - Sep 2022
Google Supported Internship by SmartIntrenz
 - Developed a Grocery List Application using ROOM database and volley library.
 - The Application helps user to add grocery Items to the list and delete it.

PROJECTS

- **GESTURE BASED OS NAVIGATION AND CONTROL** Sep 2022 - May 2023
 - Developed a python application using opencv and mediapipe libraries to recognise hand gestures and navigate throughout the Windows OS.
 - Integrated note taking through hand gestures and smooth switching in between.
- **RHYTHM - A MUSIC PLAYER APP** Jun 2022 - Aug 2022
 - Reimagined, designed and developed backend database to collect, store and sort data.
 - Developed and implemented tilt gestures to play, pause, go to next and go to previous songs.
 - Gestures can be turned on/off with use of dedicated buttons & songs can be added to Playlist & Favorites.
- **LEAFNOW** May 2022 - Jun 2022
 - Connecting enthusiasts, users can create an account on the site and can start filling out a form to submit their services.
 - Encouraging users to sell/buy/donate plants/seeds, by letting them know the importance of the same.
- **RECIMANIA - FOOD RECIPE APP** Apr 2022 - May 2022
 - Used rest API called spoonacular api to fetch the recipes.
 - It helps user to search for the food recipes based on different categories and gives step by step instructions to prepare the dishes.
